

# CENTRAL EYRE IRON PROJECT

Community

Consultative

Committee

## Minutes of the Meeting 10 - Warramboe Community Club – Thursday 11<sup>th</sup> December 2014

Prior to the meeting, members were invited to undertake a short tour of the local project site to review some concerns. Darren O’Brien, Dan Van de Vorstenbosch, Jenny Sampson, Craig Sampson, Helen Lamont, Tim Scholz and Tilly Smart toured the area, travelling along Murphy Road to discuss the condition of the road and the repairs to the road after the major drilling program a couple years ago. Darren was concerned that the initial repairs were not adequate.

The members also stopped at a salt pan alongside Murphy road where Iron Road had previously used the site to discharge groundwater under an approved hydrogeological drilling program and the samphire vegetation had died. Darren was concerned that the impact the highly saline groundwater had on the samphire vegetation was an example of what could potentially happen longer term to the mine site rehabilitation program. This provided an opportunity to discuss the potential impacts of the salt on the surrounding environment.
