<b>10.0 Iron Road</b>  Iron Road Report (Tim Scholz & Tilly Smart)	<p>A question was raised to IR “Where is IR currently with its sensitive receptors”?</p> <p>It was brought to IR’s attention that payment to Landholders for compensation was extremely slow (up to 6 months before payment was received)</p> <p><b>Development Submission</b> Our Development Application was lodged 16<sup>th</sup> June</p> <p><b>Legal Advice – Incorporation (Tilly Smart)</b> One of my actions from the last meeting was to provide the legal advice that I sought in regards to incorporation tomorrow night so I am happy to email out the summary of the advice in advance. The following documentation was provided to the legal firm</p>	Tim Scholz/Tilly Smart to follow up

	<p>for their assessment of the group and its purpose as well as the perceived liability issues at hand:</p> <ul style="list-style-type: none"> <li>• CEIP CCC Terms of Reference</li> <li>• Concerns expressed by Gina regarding liability in letter to Helen and CEIP CCC dated 9 December 2013</li> </ul> <p><i>In Summary:</i>  <i>The legal opinion is that in light of the purposes for which the CEIP CCC was formed, the low risks posed by the activities undertaken by CEIP CCC and the individuals involved and the obligations that come with incorporation, the circumstances do not warrant the incorporation of the CEIP CCC at this time.</i></p> <p><b>Is Strontium Harmful in its natural form?</b>  The short answer is no, however in order to provide full and comprehensive information regarding the entire ore body and its makeup, Iron Road have sought an independent expert to develop a fact sheet on the composition of the ore body. This will be available at the next CEIP CCC meeting on 30 July 2014.</p> <p><b>Questions taken on notice received after the meeting:</b>  Where is Iron Road with preparation of sensitive receptors?  When will the CCC be consulted regarding this?  The Committee would like to see a PEPR to know how it all works?  Where are the dust monitors and weather station?  Why can't Iron Road corridor transect through the conservation parks?  <b>Blasting</b> – Update to be provided at the next meeting.</p>
