

Central Eyre Iron Project

47th Annual Lock Cup

Iron Road was once again the major sponsor of the Lock Cup this year and had a collective of Iron Roaders who attended the event. Despite the soaring temperature, it was a great day had by all who were there enjoying the races, delicious food supplied by the Wudinna Team Yarders and hospitality of the Lock Racing Club. Tilly and Nicole were lucky enough to judge the best hat competition with Marie Lally taking first prize looking gorgeous in her red outfit with matching red hat. Milo was chuffed to be able to present the Iron Road cup to the winning Trainer Brian Lear. Thank you to Lock Racing Club who looked after us all so well on the day and congratulations to all the trainers, owners and jockeys who had a win.

Iron Roads Kyancutta House Development

At the end of December last year Iron Road transferred its core processing facility from Harry Sampson's property just out of Warrambo to the Iron Road house at Kyancutta. You may have noticed various works going on at the property as a shed was erected and grounds were levelled out ready for single person accommodation. The accommodation and sampling facility has now been completed and is where the Euro field crew live and work during their time away from home.

The photo to the right is 12 of the 16 "dongas" installed to accommodate the Euro field crew. Below is the core sampling facility where the drill samples are sorted and analysed.
