

# Central Eyre Iron Project

## Iron Road in 2014

It is unbelievable to think we are on the cusp of Christmas again and preparing to momentarily wind down for the Christmas and New Year break. It has been a busy year at Iron Road with a lot of work being put in to completing the Definitive Feasibility Study (DFS) ready for 2014. We expect to have the DFS results by early 2014 and the written report completed before the end of March 2014. The DFS report will provide a cost estimate of the Central Eyre Iron Project (CEIP) targeted at investors who are seriously considering financial commitment to the project.

The community aspect of the DFS was considered and informed through the local knowledge collected during public meetings, focus groups, community feedback and informal engagement sessions held in 2012 and 2013. This will continue in more depth with the recent establishment of the CEIP Community Consultative Committee and recently appointed independent chairperson Helen Lamont. The committee is well prepared and capable for taking on the role as the voice of the community and discussing all aspects of the Mining Lease Proposal with Iron Road.

## Merry Christmas and Happy New Year

We would like to wish everyone a very happy and safe Christmas and New Year break. Enjoy the Venus sea and sun if you are making your Christmas holiday trip over and take care on the roads during this wonderfully busy period. We would like to thank everyone in the community, especially those who have volunteered their time to make a difference on the project, for your ongoing input, feedback, understanding and value that you bring to the project and return back to the community through your close involvement. Iron Road and the community team look especially forward to working with the CCC group in the New Year towards achieving best case opportunities for the community as a whole.

## Adelaide Office Closure

The Iron Road Adelaide office will be closed from cob Tuesday 24 December 2013 reopening in the New Year on Thursday 2 January 2014.
