DISCLAIMER

Iron Road Limited has taken all reasonable steps to review the information contained in this document and to ensure its accuracy as at the date of submission. Note that:

- (a) in writing this document, Iron Road Limited has relied on information provided by specialist consultants, government agencies, and other third parties. Iron Road Limited has reviewed all information to the best of its ability but does not take responsibility for the accuracy or completeness; and
- (b) this document has been prepared for information purposes only and, to the full extent permitted by law, Iron Road Limited, in respect of all persons other than the relevant government departments, makes no representation and gives no warranty or undertaking, express or implied, in respect to the information contained herein, and does not accept responsibility and is not liable for any loss or liability whatsoever arising as a result of any person acting or refraining from acting on any information contained within it.

COMMITMENT

Iron Road's environmental performance is an important part of our business and for the communities in which we operate. We strive to work with communities and all stakeholders towards a bright and confident future that improves local and regional economic, social and environmental outcomes.

Iron Road seeks to do this by ensuring we provide a net benefit for the environment and communities within which we operate. To achieve this we will:

- Meet or exceed all relevant environmental laws, regulations and approval conditions,
- Identify, monitor and manage environmental aspects of our business to maximise benefits and minimise adverse impacts, including preventing pollution,
- Strive for excellence in environmental performance through setting goals in consultation with the community,
- Improve performance by undertaking appropriate environmental research and development, preferably utilising a partnership approach,
- Ensure our environmental systems and procedures appropriate to the nature and scale of our activities are fully integrated into our business,
- Train and support our employees and contractors to ensure we have the necessary skills and technology to meet or exceed our environmental performance expectations,
- Develop, implement and continually improve work practices that enable us to identify, assess and manage environmental risks and opportunities,
- Communicate, engage and build trust with communities, regulators and other stakeholders on our environmental performance,
- Publicly report our environmental performance on a regular basis; and
- Provide adequate resources to implement and regularly review this policy.

A handwritten signature in black ink, appearing to read "Andrew Stocks".
